

WAYS TO ORDER

There are 3 options when you order online at shopwithscrip.com or on the RaiseRight app.

Physical Cards: You can place your order online before 9:00 AM on a TRIP Wednesday and your cards will be ready for you to pick up the following TRIP Wednesday morning at your designated school. Or you can now have certain cards shipped straight to your home if you wish to pay the shipping.

E-Gift Cards are electronic gift cards that you purchase on the RaiseRight app or online. You can show the barcode found in your app or ShopWithScrip account, or print them out on your home printer and use them in stores just like a physical gift card. They are perfect for last-minute purchases.

Reload is available on certain cards. This allows you to Reload a physical card that you have purchased through our TRIP program. Just register the card (number on the back), give it a name (ie. Mom's grocery card) and reload it at your convenience.

There are 2 options when you order onsite on Wednesdays at our Highschool and Rose Park locations.

Instant TRIP (green forms) can be found at our 2 TRIP locations - Rose Park Elementary and HC High School on Wednesday mornings 7:30 AM until 9:00 AM. Get your cards instantly at these TRIP tables.

Blue order forms These forms can be picked up at the TRIP table or they can be printed from the HCS website. They can be turned in throughout the week at the HCS Administration office or at the Rose Park office.

“Ordering online is actually just as easy as using the paper order form, plus you can order from home whenever you like!

You don't have to worry, because your transactions are completely secure.”

“At first, I didn't like the idea of paying online but I found that paying for your order online is completely safe as it uses the same information required to register for PrestoPay is the same information plainly visible on the bottom of every check; so your banking information that would have been exposed to other people on a regular check is electronic and kept private. GLSC has the latest computer network security protocols to keep you and your money safe.”
